Certified by BIS

as per IS 458:2003

ACP Group has a Manufacturing History of more than 12 years in diversified sectors like RCC Pipe, Pre- Stressed precast PSC pole and other cement concrete product.

Class	Type	Sizes
NP-2 Class	Low Duty	300mm to 1800mm
NP-3 Class	Medium Duty	300mm to 1800mm
NP-4 Class	Heavy Duty	300mm to 1800mm
P-1 Class	Pressure Pipes	300mm to 1800mm

**RCC Concrete Pipes or Hume Pipes, Plain End RCC Pipes, S&S RCC Pipes**

We manufacture Vertical vibrated casting pipe from 300mm dia to 1800mm dia as per IS-458. We manufacture Pipes in both Plain End with Collar Type and Socket & Spigot Type (S&S Pipes). We also manufacture Pressure Pipes. Concrete Pipes / RCC Pipes are used in underground drainage, sewerage lines, Water Supply, Road Culverts. RCC Pressure Pipes are used in Lift Irrigation Schemes and Large Drain Works.

**RCC pipes for water supply, Drainage Irrigation, Road**

RCC pipes from 300mm Dia. to 1800mm pressure and non-pressured pipes of NP2/NP3/P1/P2/P3 class collar jointed and socket - spigot types and allied product.

The Pre-stressed Precast Fencing Poles are used for Fencing the properties, Perimeter Protection and also widely used in Solar/Electric Fencing Systems.

## Well Equipped Modern laboratory for Carrying out test to ensure High Quality Products

It is owing to our Quality Testing Laboratory that we manage to offer a flawless range of products. We follow the testing guideline issue by BIS New Delhi, for checking our products. With the association of our group of companies we have been able to acquire a huge renowned clientele in the market. Having a strong market reputation, we strive hard towards maintaining by gaining maximum satisfaction of our clients.

### Three Edge Load Bearing Testing Unit

### Hydro Testing Unit

### Compression Testing Unit

## Road Culverts

Culverts are devices used to allow flow of water beneath roads and access points where passage is necessary. We are providing Pipe, Pipe Arch, Box, Arch, Bridge & More types of Culverts with minimum cost.

## Excellent Product

Superior Technology for Manufacturing Concrete R.C.C Pipes. Fully Automatic machine for vertical casting of concrete pipes. Very High Speed of Production of RCC Pipes.

## Transportation

Fast and time delivery. Pipe and all cements product transport all over India
